

### REMARKS

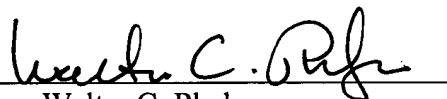

The present Amendment is submitted under the provisions of 37 CFR 1.312. It is requested that the present Amendment be entered since the present Amendment will not require any substantial amount of additional work on the part of the Examiner.

The title of the invention listed on the Notice of Allowance is the title as it appears on the front page of the PCT international publication. As this title contains spelling errors, the title has been amended to correspond to that presented in the Declaration and the first page of the English translation of the present U.S. National Stage application.

Therefore, it is respectfully requested that the present Amendment be entered as being directed to matters of form not affecting the scope of the invention.

Respectfully submitted,

Syunsuke SATOH et al.
